

WEARWELL®

WARRANTY DETAILS

URETHANE PRODUCTS

10 year Resilience Warranty for Wearwell Urethane Products

Resilience is defined as the ability of a material to return to its original state after being compressed. The urethane material used in the construction of Rejuvenator Squared No. 502 and Rejuvenator Domed No. 503 is guaranteed to not crush down under normal conditions of usage for ten years after the date of shipment. Normal conditions include, but are not limited to:

1. dry area use only
2. no heavy cart or tow-motor traffic
3. use as an anti-fatigue mat for human workers.

If the material does crush down within this warranted time after the date of shipment, Wearwell, Inc. will, at its discretion, either i.) replace the product with the same or substantially similar product, or ii.) reimburse the buyer for the pro-rated purchase price of the nonconforming product. Wearwell, Inc. reserves the right to inspect the non-conforming mat(s) before replacing or reimbursing the buyer.

Therefore, at the preference of Wearwell, Inc., the mats must be returned or available for on-site inspection. Modifying or installing the mat may void the warranty. The decision to void this warranty will be made at the sole discretion of Wearwell, Inc. To the maximum extent permitted by law, Wearwell, Inc.'s liability shall not exceed the purchase price of the product; Wearwell, Inc. shall not be liable for any incidental, consequential, special, and indirect or punitive damages (including without limitation, damages from lost business, profits or goodwill).
